

Comparison / Contrast Between LBP-090 and LBP-110

LBP-110	LBP-090
Stainless steel cavity and housing	Painted cavity and housing
Exhaust air flow adaptor	Exhaust air flow adaptor
8 feet chemical resistant hose included	Hose not included
Stainless steel hose clamps included	Hose clamps not included
12 month warranty	6 month warranty

Please Note: Both microwave ovens have the same maximum power level (1,000 watts), the same number of power levels (5), but have slightly different control keypads. Functionality is similar, but if you are using reagents with corrosive properties, or want easier installation, use the LBP-110. If you don't anticipate using corrosive, toxic or noxious reagents, use the LBP-090.
